

# PrezSez October 2021

This month concludes my first year serving as President of the Association. I have learned a great deal and will seek the opportunity to further advance my commitment to the improvement of the Association facility and productive future of the Poway Valley Riders Association. I would like to express my appreciation of all of the Board members in their willingness to serve and support the success of the Association.

Our annual election of officers and directors will take place at the October 5 General meeting with the new Board being installed at the November General meeting and taking their seat at the November Board meeting. Elections will be held for President, Vice President, Treasurer, Secretary and 5 Directors. Refer to our Bylaws for additional information. As of this writing and to the best of my knowledge, all but one (Janice Kall, Secretary) of the current Directors have agreed to continue their service and I am not aware of any received nominations. We do allow nominations from the floor of the meeting however the candidate must be present at the meeting or provide written acceptance of the nomination. In addition, you must be present at the meeting to vote and we do not allow proxy (or by SKYPE) voting. The meeting will be held on the grounds at 7 pm.

There are a number of issues the new Board will be addressing as the year end approaches. In addition, the Board continues to evaluate and refine the use of the pvra.com website as our primary means of communicating with the membership. We encourage you to visit this site regularly and will advise you of important updates by "all members Email Blast". We welcome any feedback from members as to how this can be best utilized. This (PrezSez), the meeting minutes from September General meeting and the agenda for the October General meeting can be found on the website under "Horsetales".

Various facility repairs and improvements will be continuing. If you have any questions or concerns as to any work in progress please do not hesitate to contact me (Jim Walls). The remaining shows can all use some help and there are a number of tasks maintaining the grounds. Please check your work hour status at [pvra.com/membership/workhours](http://pvra.com/membership/workhours) and if you need some hours let either the show manager or board member know.

In closing I'd like to thank the membership for their support and look forward to continuing our efforts to provide you the best value possible for your continued patronage.
